## Education

**YAMUNA INSTITUTE OF SCIENCE AND TECHNOLOGY, GADHOLI**      2015
Computer Science                                        B.TECH

**S.D PUBLIC SCHOOL**                                    2011
C.B.S.E BOARD                                          10+2

**S.D PUBLIC SCHOOL**                                    2009
C.B.S.E BOARD                                           10th

## Projects

**Prestashop Google Fonts**
🔗 https://webkul.com/blog/prestashop-google-fonts-user-guide/

Prestashop Google Fonts is an effective tool that allows you to add Google Fonts to the Prestashop theme without coding.

**PrestaShop No Contact Delivery**
🔗 https://store.webkul.com/prestashop-no-contact-delivery.html

PrestaShop No Contact Delivery module offers shop owners to provide the no contact delivery of the products to customers.

**PrestaShop Prepare Picking List**
🔗 https://webkul.com/blog/prestashop-prepare-picking-list-order-preparation/

PrestaShop Prepare Picking List module offers shop owners to create a separate list of all the products that should be in stock to fulfil orders.

**Prestashop Make An Offer**
🔗 https://store.webkul.com/Prestashop-Bulk-Buy.html

Improve the online shopping experience and boost conversions on your store by allowing customers to make offers.

**Prestashop Marketplace Bulk Buy**
🔗 https://store.webkul.com/Prestashop-Marketplace-Bulk-Buy.html

- PrestaShop Marketplace Make an Offer allows the customers to request sellers' products in bulk.
- Buyers can communicate with the sellers via a messaging system and negotiate for better prices.

**Prestashop Bulk Order Delete**
🔗 https://webkul.com/blog/prestashop-bulk-order-delete/

- Bulk order delete can do this job for you.
- Not only this module will allow you to delete orders in bulk
- It also you can erase related information like invoice, cart details, delivery slip, payment history from the order.

**Prestashop Marketplace Product FAQ**
🔗 https://webkul.com/blog/prestashop-marketplace-product-faq/

- The module is an add-on for the marketplace module.
- With the help of this module seller can add some frequently asked question (FAQ) with the product in any language
- It can give some extra information to buyer.

**Iovrvf Hub Portal**
🔗 https://iovrvfhub.org/

Created website in Codeigniter framework and make functionalities like Role Management, Permission Management, Account Management and many other modules etc.

**Drchoice Portal**

Prepared website in Codeigniter framework and create Shopping Cart Functionality, Orders, SMS Integration, Payment Gateway and many other modules etc.
